Allowable Subject Matter

1. Claims 45-56 are allowed. Claims 1-44 and 57-61 were deemed allowable in the previous Office Action.
2. The following is an examiner's statement of reasons for allowance. In claim 45, applicant has claimed a microfluidic device with the following combination of elements: a first non-ablatable substrate layer with a first surface, a first ablatable polymer layer with a first groove laser ablated entirely through the layer on the first surface of the first substrate, and a second planar substrate mated with and overlaying the first ablatable layer. The Examiner considers "Chow" to be the closest prior art. The Examiner agrees with applicant's submitted arguments which state that this reference is not eligible as prior art based on the reference and instant application being commonly owned by Caliper Technologies Corporation. Therefore, the previous rejection based on this reference is withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

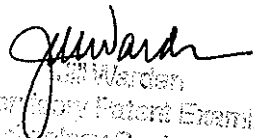

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dwayne K Handy whose telephone number is (571)-272-1259. The examiner can normally be reached on M-F 8:00-4:30.

Art Unit: 1743
